

Outlining

What can it do?

An Outline will...

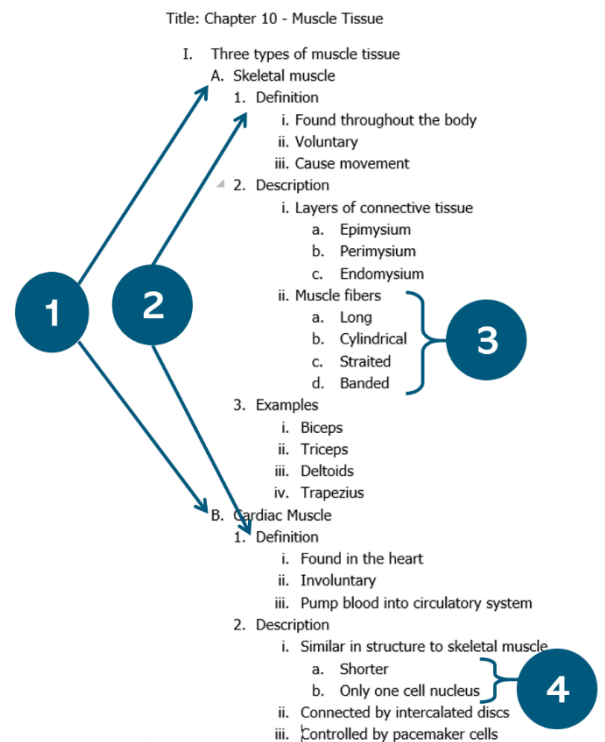

- Present information in an organized and logical manner
- Focus on main ideas and key details
- Show how information is related
- Cover a lot of material in a small space

When to outline...

- Outline before you write to organize ideas.
- Outline after you read to identify the order of main ideas and key supporting details.

The Four Rules of an Outline

1. **Parallelism:** Headings of the same level are of the same kind (a noun, a verb, etc.)
2. **Coordination:** Headings of the same level are the same rank
3. **Subordination:** Information moves from general to specific by indenting from left to right
4. **Division:** Each heading must have at least two subheadings in order to be divided
