

Specialized Terminology

Specialized Terminology:

Unique words used by a specific subject or discipline

Every subject and discipline has its own unique vocabulary or set of words for talking about its topics. Specialized terminology is useful because it provides an effective way to communicate information within a particular field of study.

💡 It's Always a Good Idea to 💡 Look Up Specialized Terminology:

- In the body of the text
- In the glossary of key terms
- In a dictionary

Terminology Chart

New Terminology – Start with a section for new terminology. List the terms and their definitions.

Prefixes, Roots, & Suffixes – Then, list the word parts commonly found in the new terminology, along with their meanings, and an example for each, to help you to identify patterns.

Acronyms – Finally, create a section for frequently used acronyms. An acronym is an abbreviation formed from the initial letters of other words.

It's also a good idea to keep track of all the specialized terminology for a specific course, subject, or discipline by creating a Terminology Chart.
